

## Information

### Give data meaning - find your True Causal Loss™

Are you working hard to solve problems in your production area, but your overall performance is not really improving? OptimumFX can open your eyes to the real losses in your business. Then we'll show you how to make immediate and sustainable improvements.

**Rapidly identify the issues that are having the greatest impact on your manufacturing performance.**

We'll go right back to the start with an operational opportunity analysis to review the current state of your site.

1. **Information:** what data do you have? Is it accurate? Accessible? Useful?
2. **Focus:** do you have robust and rigorous routines? Are the right decisions being made?
3. **Actions:** are you taking effective action? Are problems getting fixed permanently?
4. **Sustaining Change:** are your employees engaged? Do they have the skills and knowledge to deliver your goals?

Then OptimumFX will show you how to tackle your most pressing issues. And if you don't believe we have provided value, you won't pay us a penny.

"No win, no fee, no risk": We'll show you where your loss is and how to reduce it in just two days. Then we'll show you how you can get to >80% OEE.

## Focus

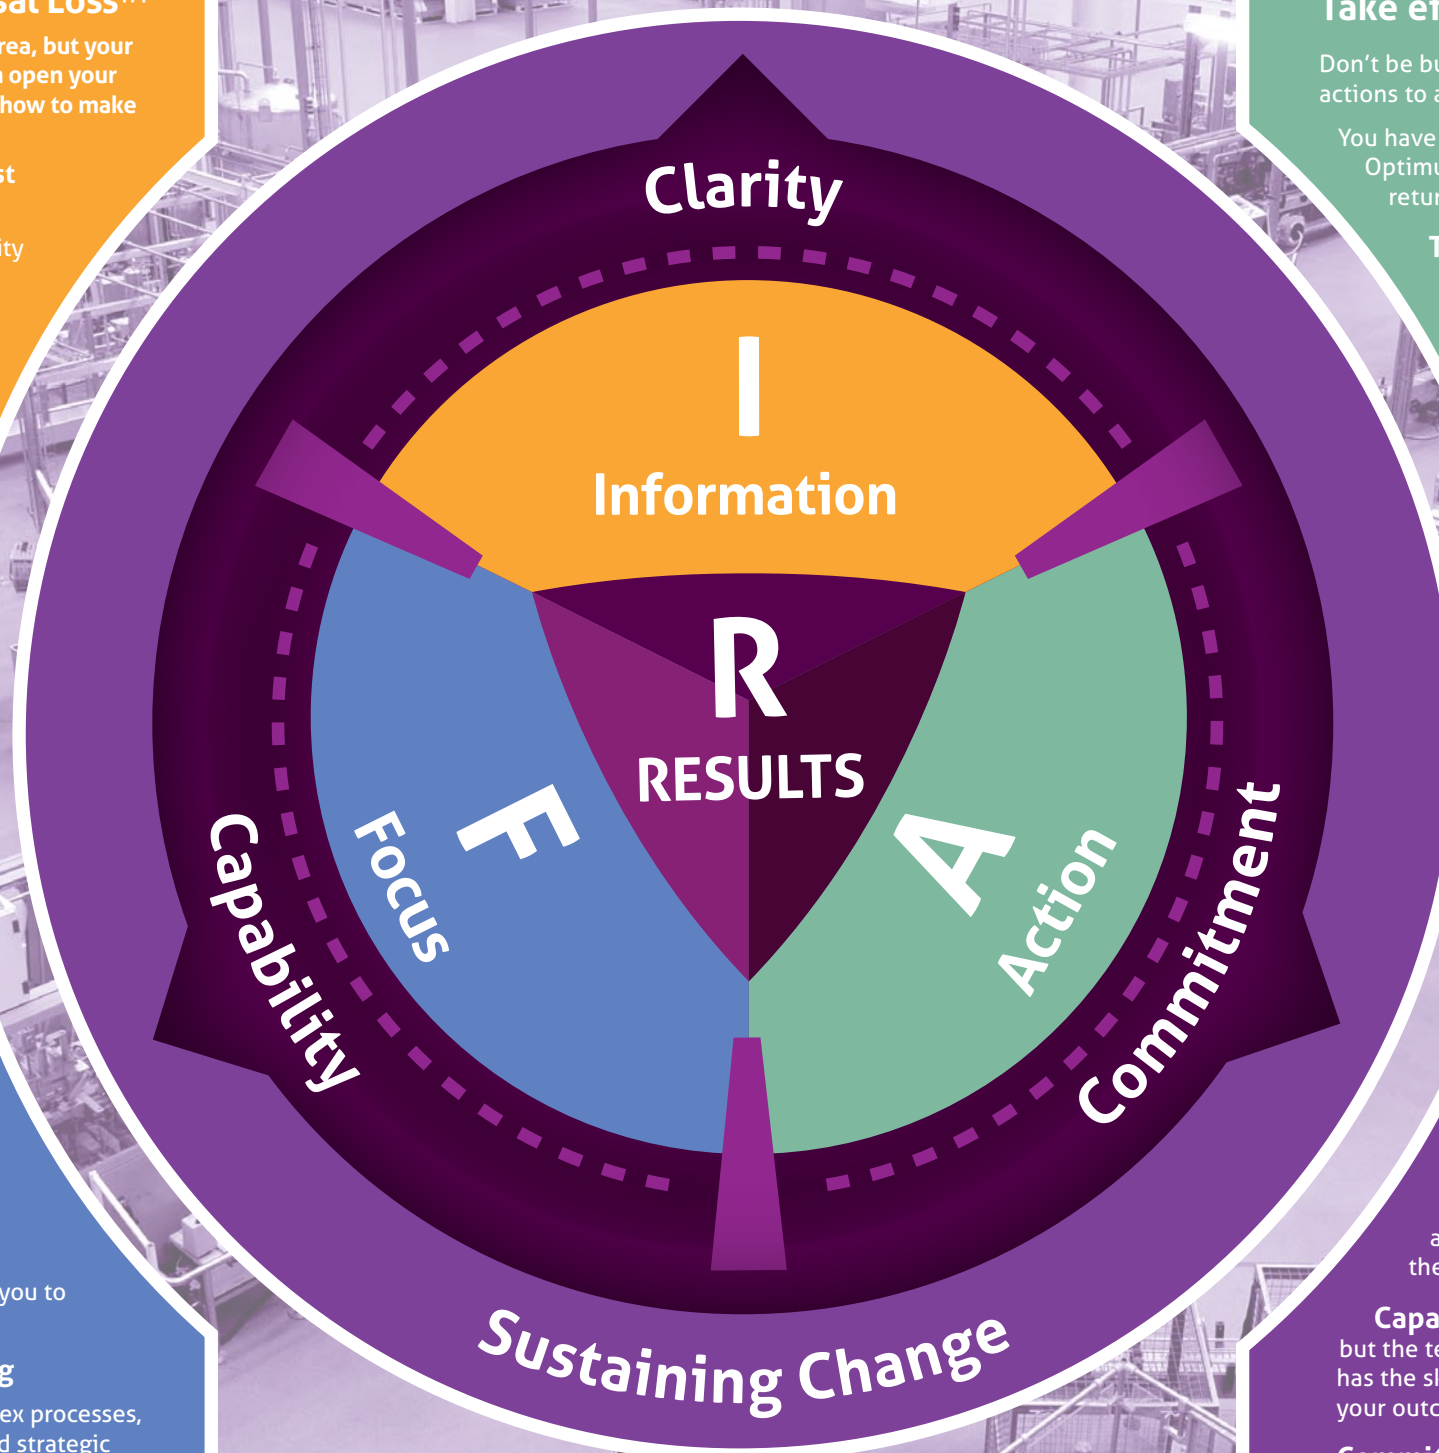

### Rigorous routines - right decisions - sustained improvement

Making one off changes for improvement is one thing. Sustaining your manufacturing improvements over the long-term is another. OptimumFX doesn't offer quick fixes. We help you create a new way of working: one that will take you to world-class OEE status and keep you there.

### Management routines - Informed decision making

Manufacturing and production isn't simple. It involves complex processes, teams of individuals and multiple shifts. Effective tactical and strategic decision-making using meaningful data gives your business real focus and daily momentum.

**We'll help you establish the right set of effective management routines to deliver world-class OEE.**

## Action

### Take effective action and maximise results

Don't be busy fools. You need to have the right balance of effective actions to achieve desired results.

You have limited resources: money, time and people. Working with OptimumFX is about choosing the right actions to get maximum return for your improvement effort.

### True Causal Loss™ counter measures

**Know your losses – know how to act.**

We know what good manufacturing looks like. We'll help you get your team responding quickly and effectively to maximise your results.

## Sustaining Change

### Increased fulfilment, better results, improved profits

Great Information, effective Focus and appropriate Action will deliver you a step-change in performance, but to make it sustained you need to captivate your team in the complete journey.

### The 3Cs of Sustaining Change

As soon as we meet you, you'll be engaged in the process from gaining rapid insights and creating desire for change.

**Clarity:** From the boardroom to the plant floor, the reason for change must be absolutely clear. Clarity is about everyone facing in the same direction. It is setting the goal and having everyone work together to deliver it.

**Capability:** Big goals get us focused on great results, but the team must be equipped to deliver it. Ensuring your team has the skills and knowledge to realise your goals is critical to your outcome.

**Commitment:** Momentum and long-term sustainability depend on creating engagement and driving accountability at all levels. This is the truest sense of Continuous Improvement. This is true business transformation.
